Subject: RE: Bowling Chart Review
Flag: Follow up

Hi Regan,

Thank you very much. A question. What do you think the end deliverable will be for "CRADA developing Pb exposure assessment device for home?" Will it be a manuscript? Will it be a device? Should we put this one in as a separate deliverable since the other deliverables in 3.1 and 3.2 are manuscripts? 3.3?

Action 3. Drinking Water Pb Concentrations (Murray)

3.1 Manuscripts: Evaluating sampling technologies

Manuscript: Critical lit rev of different sampling techniques (Triantafyllidou)
CRADA developing Pb exposure assessment device for home
Manuscript: Sampling device for identifying lead service lines (Lytle) - R5 RARE Project
Manuscript: Flint point of use filters (Lytle, Schock)
Manuscript: Sampling for Pb service line identification (Lytle)

3.2 Manuscripts: Developing an add on to EPANET drinking water distribution model

Manuscript: Validating premise plumbing model (Burkhardt) - HSRP/SSWR
Manuscript: premise plumbing water usage model (Burkhardt) - HSRP/SSWR

Thank you,
Mike

Subject: RE: Bowling Chart Review

Hi Michael,

Our NRMRL "lead in water" team met and updated the bowling chart for our items: 3.1, 3.2, 7.1, 7.2, 7.3 (see attached). We deleted a few lines, added a few lines, and edited the text. We identified the two official "Shark Tank" products, two that are joint SSWR/HSRP products, and one RARE product. I'm copying the PI's here so they can see the updated version of the spreadsheet. Let me know if you have any questions.

Thanks,

Regan

Subject: Bowling Chart Review

Hi Pb Shark Tank POCs,

Attached is a Pb bowling chart that has been updated since our last meeting on September 12. Valerie and I would like to share this chart at a Pb briefing for Jennifer Orme-Zavaleta on Tuesday, September 25.

If possible, could you please review the attached spreadsheet to see if your deliverables (in bold) and milestones are accurate in both their descriptions and target dates. If you could send me any edits by COB tomorrow (September 18) that would give Valerie and me time to share the chart with the Lab and Center Directors in advance of the Tuesday briefing.

Thank you very much.
Mike
